# DSA MAP

*Managing the  
Assessment Process*

**Fully meets QAF (2014)**

***Electronic data recording  
and accurate production of  
monthly KPI returns***

<sup>1</sup> Requires 3<sup>rd</sup> party SMS account

<sup>2</sup> May not contain latest details

*DSA MAP software is designed specifically for Disabled Student Allowance assessment centres and meets the requirements of QAG's Quality Assurance Framework (QAF 2014 v 4.12)*

- ❑ Enables high standards of service to student applicants through effective recording and administering of the assessment process
- ❑ Gives advance warning of assessment and report deadlines for ongoing applications
- ❑ Generates 'push button' reports in seconds on all Key Performance Indicators, Statistical Returns and many Audit items

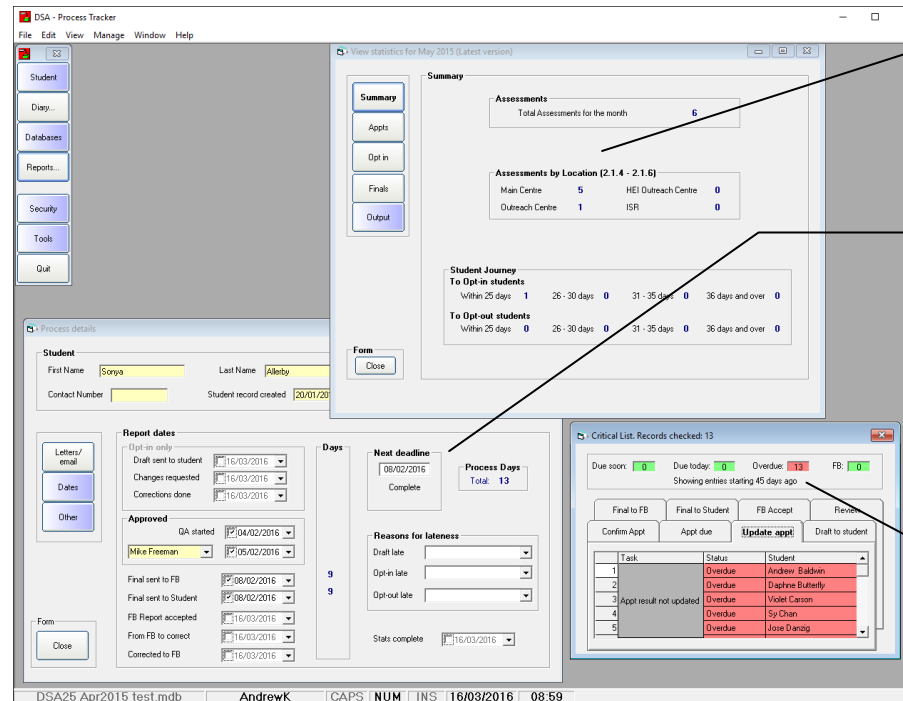

**New features to meet latest QAF include:**

- ❑ QA report process
- ❑ New 'copy report' criteria
- ❑ Freeform text Reasons for lateness
- ❑ Student review reminders
- ❑ Print out to match QAG submission
- ❑ Ability to run both pre- and post-latest QAF KPIs

*Resoco is committed to ensuring that DSA MAP continues to meet the demands of changes to the QAF.*

**Maintains control**

Users enter and track information in a series of well-designed forms. Automatically generated reports provide reminders of critical events that are due and actions that need to be taken to keep a 'student journey' on schedule.

Summary of a month's KPI conformance statistics

Recorded dates for each step of the report process (program calculates next deadline, days per step and total days)

Critical List displaying upcoming, due today and overdue events in process

As well as helping centres to meet QAG requirements, many program options have been added to accommodate the way that individual assessment centres operate.
